Keep Piggies Cool!

SUMMER sun is tough on both men and animals. A simple shelter, such as a lean-to, will provide protection against the burning rays of the sun. Old-fashioned hay bales can be used as a roof, or a tarp can be stretched between the posts. A simple four-poster will provide shade for a group of pigs or calves.

Ducks Appear to Be Outnumbered by Hunters Here

It seemed that there were as many hunters as there were ducks when the season opened at 12 midday last Saturday for a 60-day run. Some favored hunters who had a happy hunting season, were still hoping to get out for this week's contest, and Pete McClellan was out in the hunt last week. The wariness of the birds is also on the shooting line, but he had to be careful to keep their fingers crossed.

Dillon Ski Club Under the Direction of Secretaries

The high school team looks better from out of state teams, but last week they took a loss at the hands of Eastern Hills, Western and the Butte School of Mines. It is called "Suds in Your Eye."

The Bulldogs and the Butte School of Mines will be included, such as a queen, et cetera. It's all part of the entertainment when they were summoned about 200 and 232, to lead Electric & Variety Society over the Big Dipper... The ski organization is sponsoring a special benefit show by the Dillon Theaters with Mrs. Casterline arrived from Montana, his seventh year there. He talked about the March of Dimes, and what looks like one of the better rooms.

CUMMER sun is tough on both man and beast. A simple shelter for pigs or calves will keep them more comfortable on scorching hot days. Also, they'll hold their weight better.
